SHARE THE TREASURE 1

Captain Salamander and his crew have found 20 bars of gold.

His three crew (Bert, Barry and Bill) share the bars into 4 equal piles.

How many bars are in each pile?

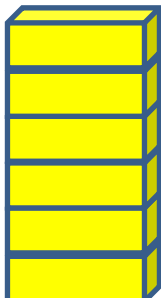

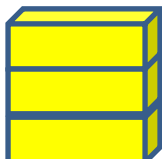

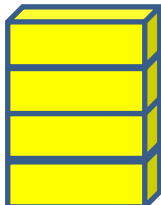

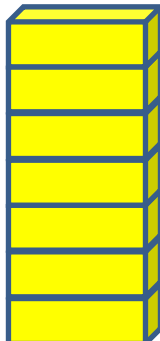

Captain	Bert	Barry	Bill

But the Captain decides that everyone should have a different amount.

- The Captain should have the most bars.
- Bert should have 1 fewer bar than him.
- Barry should have the least bars (because he is lazy).
- Bill should have 1 more bar than Barry.

Who should get which pile? Write the name above the pile.

FIRST TO 100

First to 100 is a dice game played on the 100 square to help develop children's reading and counting skills with numbers up to 100. The aim is to be the first player to get to number 100.

Age range: 1ST Grade +

Number of players: 1-4

Learning:

- Counting numbers to 100;
- Reading numbers to 100
- Learn how to count on and back using a 100 square
- Adding two numbers up to 6+6

You will need

- 1 counter per player. Each player needs a different color.
- 2 dice

Instructions

- Each player starts at number 1.
- Player 1 rolls the dice and then adds the numbers up. Player 1 then moves forward the number of spaces on the dice.
- If Player 1 moves onto a colored square, then the instructions on the board have to be followed:
- The first player to reach 100 is the winner.

Variations

- Roll 1 dice instead of two dice will make the game slower. Rolling 3 dice will make the game quicker.
- Use 8 or 10-sided dice will bring in different numbers to add together.
- If you land on top of another player, they have to go back to the last red square they passed.
- If you roll doubles, then you can have another turn.

FIRST TO 100 v1

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20

81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

WINNER

Move on to the next blue square.

Move back to the last red square.

Stuck in the mud – roll an even number to continue

You're in luck – have another turn
