RACE TO 100 MATH GAME

Race to 100 is a simple racing game to help children become more familiar with the 100 square. There are two different boards to use, depending on whether you want to use a 100 square that starts in the top left and ends in the bottom right (version 1), or alternatively a 100 square that starts in the bottom left and ends in the top right (version 2).

Note – unlike Snakes and Ladders, you have to start a new row when you get to the end of the previous one.

Age range: Kindergarten +

Number of players: 1-4

Learning:

- Counting from 1 to 100;
- Learn how to count on and back using a 100 square
- Reading numbers to 100.
- Adding two numbers up to 6

You will need

- 1 counter per player
- 2 dice

Instructions

- Each player starts at number 1.
- Player 1 rolls the dice and then adds the numbers up. Player 1 then moves forward the number of spaces on the dice.
- If player 1 moves onto a colored square, then the instructions on the board have to be followed.
- The first player to reach 100 is the winner.

Variations

- Roll 1 dice instead of two dice will make the game slower. Rolling 3 dice will make the game quicker.
- Use 8 or 10 sided dice will bring in different numbers to add together.
- If you land on top of another player, you send them back to the last red square they passed.
